I DONT KNOW HOW TO FEEL ABOUT THIS GAME.

it is certainly a challenge but sometimes it is because it is bit drifty, as in the physics arent quite right. it would also be good if the soundtrack was random songs from ncs.

apart from that the game is beautiful and it is nice to look at. also, it went from 0 to 100 real quick and all of a sudden i was jumping over multiple sharks and had to time stuff, apart from the level before how you just had to jump over a gap and that was it. It Game is for god!!! VErY nIce GaMe
